# **OVERVIEW:**

# Comprehensive Performance Framework for State Charter Schools

#### **PURPOSE**

Quality charter school authorizers establish standards for school performance that are clear, quantifiable, rigorous, and attainable. The SCSC Performance Framework includes academic, financial, and organizational performance measures that establish expectations, guide practice, assess progress, and inform decision making over the course of the charter term and at renewal or revocation.

The three areas of performance covered by the frameworks—academic achievement, financial management, and organizational compliance— correspond directly with the three components of a strong charter school application and are the three areas on which a charter school's performance should be evaluated. In each of the three areas, the framework asks a fundamental question:

- 1. Academic Performance: Is the educational program offering students a better educational opportunity than they would otherwise receive at a traditional public school?
- 2. Financial Performance: Is the school financially viable?
- 3. Organizational Performance: Is the organization effective, compliant, and well run?

#### SCSC PERFORMANCE EXPECTATIONS

State Charter Schools are expected to meet academic, financial, and operational standards during every year of the charter term. However, schools that demonstrate a consistent track record of strong performance over multiple years may earn a standard five-year renewal. Additionally, schools that finish their first charter term strong (despite early struggles), and schools that consistently perform on par with the attendance zone they serve may earn an abbreviated three-year charter renewal. The intent of an abbreviated charter term is to assess the school's ability to sustain the requisite performance level.

SCSC renewal eligibility criteria are meant to serve as a guideline to inform renewal decisions. However, the SCSC may exercise discretion in approving renewal terms outside of these guidelines.

#### A New School (i.e. a school concluding its first/initial charter term):

To earn for a standard five-year renewal, a school must:

- A. meet financial and operational standards at least 50% of the time (2 of 4 years), OR
- B. meet financial and operational standards in the most recent year of the charter term for which data are available, AND
- meet academic standards a majority of the charter term (3 of the first 4 years of a 5-year charter contract term).

To earn an abbreviated three-year renewal, a school must:

- must meet financial and operational standards in the most recent year of the charter term for which data are available, AND
- A. perform at least as well as¹ (no more than 3% below) the attendance on any one or combination of the CCRPI indicators in all relevant grade bands in the most recent year of the charter term for which data are available, OR

<sup>&</sup>lt;sup>1</sup> The phrase "as well as" in terms of state charter school renewal eligibility equates to having a score that is no more than 3% below the comparison attendance zone score.

- B. outperform on the VAM or be designated BTO in most recent year of the charter term for which data are available, OR
- C. perform at least as well as the attendance zone on any one or combination of the CCRPI indicators outlined within the CPF, a majority of the charter term.

### A Tenured School (i.e. a school concluding a second or subsequent charter term):

To earn a standard five-year renewal, a school must:

• meet academic, financial and operational standards for a majority of the charter term (3 of the first 4 years of a 5-year charter contract term or 2 out of 3 years of a 3-year charter contract term).

To earn an abbreviated three-year renewal, a school must:

- meet financial and operations standards a majority of the charter term AND
- meet academic standards or perform at least as well as the attendance zone on any one or combination of the CCRPI indicators outlined within the CPF a majority of the charter term.

### SECTION I: ACADEMIC PERFORMANCE

#### **FUNDAMENTAL QUESTION**

Is the educational program offering students a better educational opportunity than they would otherwise receive at the traditional public school?

#### **INDICATORS**

To answer the above question, the SCSC uses performance metrics derived from:

- the <u>College and Career Readiness Performance Index (CCRPI)</u>, the statewide accountability tool. The CCRPI includes a content mastery component that assess student proficiency and a progress component that uses student growth percentiles to assess student growth. And from,
- Two statistical predictive measures that take into consideration the school's student body make-up, the <u>Value-Added</u> Model (VAM) and the Beating the Odds (BTO) measure.

#### **MEETING GOALS**

A state charter school can <u>meet</u> annual SCSC academic accountability standards by outperforming its <u>comparison attendance</u>-zone<sup>2</sup> in terms of student achievement or growth as measured by the <u>CCRPI Single Score</u>, CCRPI Content Mastery, CCRPI Progress, CCRPI Grade Band Score (calculated by the SCSC), Value-Added Model impact scores, <u>Beating the Odds designation</u>.

A state charter school only needs to outperform the <u>comparison</u> attendance zone on one, not all, of the academic metrics. For schools that serves multiple grade bands, a combination of grade band measures (CCRPI Content Mastery, CCRPI Progress, CCRPI Grade Band, and Value-Added Model (VAM) scores) can be used to demonstrate performance. The school must outperform the <u>comparison</u> attendance zone on any one or combination of grade band measures in all grade bands served <u>or on a grade band</u> enrollment weighted score.

#### **SECTION I, ACADEMIC PERFORMANCE MEASURES**

Measure 1, CCRPI Single Score	<u>Designation</u>
Is the school annually outperforming the attendance zone (as measured CCRPI single score)?	<u>Earned</u>

#### SECTION I: OVERALL DETERMINATION OF COMPLIANCE

As measured by the indicators and measures set forth in this section, is the school meeting academic performance standards? The school only needs to outperform the district(s) it serves on one, *not all*, of the academic metrics in order to meet standards.

#### **SCORING CATEGORIES:**

Meets Standards	Outperforms the district(s) it serves
Approaches Standards	Performs the as well as the district(s) it serves
Does Not Meet Standards	Performs below the district(s) it serves

#### ATTENDANCE ZONE- COMPARISON SCORE CALCULATION METHODS

The SCSC uses two three methods to calculate comparison attendance zone scores when assessing state charter school performance on the CCRPI:

- District Average: The state charter school's score is compared to the score of the district(s) included in its attendance zone. If a school serves a single district, it is compared to that district's score. If it serves multiple districts it is compared to the simple average of those districts. If the school has a statewide attendance zone, then the school is compared to the state average. The SCSC uses GaDOE CCRPI repots to determine the comparison scores.
- **District Weighted:** The state charter school's score is compared to a "District Weighted" score that uses the proportion students the school enrolls from each district served. If a school serves a single district, it is compared to that district's score because 100% of students enrolled in the state charter school are zoned to attend that district. However, if a school serves multiple districts or has a statewide attendance zone, a district weighted comparison score is generated based on the proportion of students the school actually enrolls from each district. For instance, if a school enrolls 80% of its students from District A and 20% from District B, then the comparison score will be comprised of 80% of District A's CCRPI score and 20% of District B's CCRPI score. The SCSC uses the GaDOE Data Collections FTE System of Residency report to determine district enrollment proportions.
- School Weighted: The state charter school's score is compared to a "School Weighted" score that uses the proportion of students the school enrolls from each school attendance zone served. The student -level address element in the GaDOE Data Collections Student Record report, is used to determine which school each student enrolled in a state charter school is actually zoned to attend (the school the student would attend if they were not enrolled in the charter school). The SCSC weights those schools' CCRPI scores based on the proportion of students enrolled. This is same process that is used to generate the District Weighted comparison scores just at the more granular, school level.

NOTE: A school is considered meeting standards if it outperforms any on one or combination of the comparison calculations across academic metrics.

### **SECTION II: FINANCIAL PERFORMANCE**

### **Fundamental Question**

Is the school fiscally responsible and financially viable?

#### **Indicators**

To answer the above question, the SCSC uses a data, mostly derived from each school's independent financial audit, to assess a schools performance on near-terms measures, which are used to calculate a charter school's ability to cover its short term (less than 1 year) financial obligations and sustainability measures which are used to determine a charter school's ability to cover long term obligations as well as their ability to effectively control cost.

- 1. The near-term measures include current ratio, unrestricted days cash, enrollment variance, debt to income ratio and a default measure.
- 2. The sustainability measures include an efficiency margin and debt to asset ratio.

#### **Meeting Goals**

In any year of the charter term, a state charter school will satisfy annual financial accountability requirements by earning enough points across near-term and sustainability measures to secure of financial score of at least 80 which equates to meeting financial standards.

### **SECTION III: OPERATIONAL PERFORMANCE**

#### **Fundamental Question**

Is the organization effective, compliant, and well run?

#### **Indicators**

In order to answer the question above, the SCSC uses data from agency monitoring and other sources as noted in the appendix of this document to determine compliance with the indicators listed below.

- 1. The school's educational program, such as adherence to its essential or innovative features and implementation of required programs;
- 2. Financial oversight such as adherence to GAAP standards;
- 3. Governance capacity and transparency
- 4. Protecting students and employees through the appropriate use of compensatory programs and employee qualifications
- 5. Maintaining a positive school environment by promoting student retention and support services
- 6. Any additional obligations including the timely remediation of previous noncompliance.

#### **Meeting Goals**

In any year of the charter term, a state charter school will be deemed operationally compliant if it adheres to the requirements of its charter contract as well as all applicable rules and laws as measured by indicators 1-6 listed above, thus earning a score of at least 80 in the Operations section of the CPF.
