

Intern (Undergrad)- Database Engineer

Who We Are

The State Charter Schools Commission (SCSC) of Georgia is a state agency located in Atlanta, Georgia that operates as an independent authorizer for charter schools. The SCSC was created by the Georgia General Assembly to enable increased school choice options through the development and support of high-quality charter schools throughout the state. The SCSC regularly reviews petitions for new start-up charter schools, in addition to reviewing the academic and overall performance of existing SCSC charter schools to ensure academic and fiscal accountability and legal compliance with the terms of the charter contract. The SCSC also works with charter school petitioners and operators to locate and develop resources and partnership opportunities with community stakeholders.

What We Need

We are looking for Database Engineers to join our team to facilitate creation of an SCSC school database. Specific needs include:

- Support in the architecture, design, development and deployment, and management of a database solution to meet the unique needs of the SCSC
- Analyzing performance, monitoring, troubleshooting, and resolving database issues
- Training SCSC staff members on database entry and query protocols

Who We Need – Qualifications

- Students graduating Spring 2021 or later (unless enrolled to pursue an additional degree in Fall 2021)
- Pursuing a Bachelor's Degree in Computer Science, Computer Engineering, or a related field
- Prior knowledge or experience in database architecture and design
- Knowledge of free database platforms, resources and/or solutions for small scale agencies
- The ability to train professionals with no background in computer science
- The ability to take on challenges and address problems head-on
- Strong ability to collaborate
- Highly driven, resourceful and results oriented
- Strong verbal and written communication skills

Other Details

Interns are paid at a \$12 hourly rate and are expected to work a maximum of 20 hours per week. Ideally, the internship would run through the completion of the project. Start-dates and end-dates can be flexible.

Please submit applications via email to darcy.callaway@scsc.georgia.gov. Note: the application requires the submission of a resume or curriculum vitae, a transcript of grades (a copy of an unofficial transcript will suffice), a cover letter explaining your interest, and the contact information for two references.

Applications that do not contain all required documents will not be reviewed.

All application materials must be received by **August 7, 2020**. Interviews will be held on a rolling basis.
