OVERVIEW:

Comprehensive Performance Framework for State Charter Schools

PURPOSE

Quality charter school authorizers establish standards for school performance that are clear, quantifiable, rigorous, and attainable. The SCSC Performance Framework includes academic, financial, and organizational performance measures that establish expectations, guide practice, assess progress, and inform decision making over the course of the charter term and at renewal or revocation.

The three areas of performance covered by the frameworks—academic achievement, financial management, and organizational compliance— correspond directly with the three components of a strong charter school application and are the three areas on which a charter school’s performance should be evaluated. In each of the three areas, the framework asks a fundamental question:

- Academic Performance: Is the charter school offering students a better educational opportunity than they would otherwise receive at the traditional local school?
- Financial Performance: Is the charter school fiscally viable and responsible?
- Organizational Performance: Is the organization effective, compliant, and well-run?

SECTION I: ACADEMIC PERFORMANCE

FUNDAMENTAL QUESTION

Is the charter school offering students a better educational opportunity than they would otherwise receive at the traditional local school?

INDICATORS

To answer the above question, the SCSC uses performance metrics derived from:

- the [College and Career Readiness Performance Index \(CCRPI\)](#), the statewide accountability tool. The CCRPI includes a content mastery component that assesses student proficiency and a progress component that uses student growth percentiles to assess student growth, among other measures. And from,
- The [Value-Added Model](#), a statistical predictive measure that considers a student’s individual characteristics and the school’s student body makeup.

MEETING GOALS

A state charter school can meet annual SCSC academic accountability standards by outperforming its comparison zone, the school/districts from which its students are zoned to attend, in terms of student achievement or growth as measured by CCRPI Content Mastery, CCRPI Progress, CCRPI Grade Band Score, or Value-Added Model impact scores.

A state charter school only needs to outperform one of the comparison zones [schools or district(s)] on Indicator 1, Grade Band Measures, or one of the measures included in Indicator 2, Schoolwide Measures, not both, in order to receive an overall Meets designation for a given year.

SECTION I: OVERALL DETERMINATION OF COMPLIANCE

As measured by the indicators and measures set forth in this section, is the school meeting academic performance standards?

SCORING CATEGORIES:

Exceeds Standards	Outperforms its comparison zone by 10 or points
Meets Standards	Outperforms its comparison zone
Approaches Standards	Performs as well as its comparison zone
Does Not Meet Standards	Performs below its comparison zone

INDICATOR PERFORMANCE

SECTION I, INDICATOR 1: GRADE BAND MEASURES

All state charter schools must demonstrate their ability to positively impact students' academic performance either through high levels of achievement or growth across all grade bands served.

<u>Measure</u>	<u>Designation Earned</u>	<u>Explanation</u>
CCRPI Content Mastery	i.e. MEETS	<i>Exceeds Standard:</i> The state charter school's score is 10 or more points higher than the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of the academic measures in all grade bands served.
CCRPI Progress		<i>Meets Standard:</i> The state charter school's score is 1 to 9 points higher than the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of the academic measures in all grade bands served.
CCRPI Grade Band		<i>Approaches Standard:</i> The state charter school' score is no more than 2 points below the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of the academic measures in all grade bands served.
Value-Added Model		<i>Does Not Meet Standard:</i> The state charter school's score is more than 2 points below the comparison zone [the schools/districts from which its students are zoned to attend] on any one or combination of academic measures in all grade bands served.

SECTION I, INDICATOR 2: SCHOOLWIDE MEASURES

All state charter schools must demonstrate their ability to positively impact students' academic performance either through high levels of achievement or growth across all students served.

<u>Measure</u>	<u>Designation Earned</u>	<u>Explanation</u>
<ul style="list-style-type: none"> CCRPI Content Mastery-Whole School Score 	i.e. MEETS	<p><i>Exceeds Standard:</i> The state charter school's score is 10 or more points higher than the comparison zone [the schools/districts from which its students are zoned to attend] on any one of the schoolwide academic measures.</p>
<ul style="list-style-type: none"> CCRPI Progress-Whole School Score 		<p><i>Meets Standard:</i> The state charter school's score is 1 to 9 points higher than the comparison zone [the schools/districts from which its students are zoned to attend] on any one of the schoolwide academic measures.</p>
<ul style="list-style-type: none"> CCRPI Grade Band-Whole School Score 		<p><i>Approaches Standard:</i> The state charter school's score is no more than 2 points below the comparison zone [the schools/districts from which its students are zoned to attend] on any one of the schoolwide academic measures.</p> <p><i>Does Not Meet Standard:</i> The state charter school's score is more than 2 points below the comparison zone [the schools/districts from which its students are zoned to attend] on any of the schoolwide academic measures.</p>

CALCULATION METHODS

Score	Calculation Explained																								
District Comparison Zone Score	<p>This score is calculated based on the proportion of students the state charter school enrolls from each district served. If a school serves a single district, it is compared to that district's score because 100% of students enrolled in the state charter school are zoned to attend that district. However, if a state charter school serves multiple districts or has a statewide attendance zone, a weighted comparison score is generated based on the proportion of students the state charter school enrolls from each district. For instance, if a state charter school enrolls 80% of its students from District A and 20% from District B, then the comparison score will comprise 80% of District A's CCRPI score and 20% of District B's CCRPI score. The SCSC uses the GaDOE Data Collections Student Record report to determine district enrollment proportions.</p>																								
School Comparison Zone Score	<p>This score is calculated based on the proportion of students the state charter school enrolls from each local school attendance zone served. The student-level address element in the GaDOE Data Collections Student Record report is used to determine which school each student enrolled in a state charter school is zoned to attend [the school the student would attend if they were not enrolled in the charter school]. The SCSC weights those schools' CCRPI scores based on the proportion of students enrolled. This is the same process that is used to generate the District Comparison Zone Scores, just at the more granular, school level.</p>																								
Whole School Score	<p>This score is calculated based on the proportion of students the state charter school enrolls in each grade band served. For instance, if a state charter school serves grades K-8 and enrolls 60% of its students in the elementary grade band and 40% of its students in the middle-grade band, then the Whole School Score is 60% of the school's elementary school score plus 40% of the school's middle school score. The state charter school's score is then compared to the same weighting of the District Comparison Zone Score and the School Comparison Zone Score. For state charter schools that serve across grade bands, this measure seeks to determine whether, as a whole, the school is providing a better opportunity for most students. The SCSC uses the GaDOE Data Collections FTE-3 report to determine district enrollment proportions.</p>																								
CCPRI Grade Band Score	<p>This score is calculated using the CCRPI Scoring by Component data file published by GaDOE annually and by following the grade band score calculation methodology as described in the 2019 CCRPI Calculation Guide¹. Specifically, each CCRPI Component is weighted and combined into an overall score by grade band. The table below displays the weights by component and grade band.</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th></th> <th style="text-align: center;">Elementary</th> <th style="text-align: center;">Middle</th> <th style="text-align: center;">High</th> </tr> </thead> <tbody> <tr> <td style="text-align: left;">Content Mastery</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">30%</td> <td style="text-align: center;">30%</td> </tr> <tr> <td style="text-align: left;">Progress</td> <td style="text-align: center;">35%</td> <td style="text-align: center;">35%</td> <td style="text-align: center;">30%</td> </tr> <tr> <td style="text-align: left;">Closing Gaps</td> <td style="text-align: center;">15%</td> <td style="text-align: center;">15%</td> <td style="text-align: center;">10%</td> </tr> <tr> <td style="text-align: left;">Readiness</td> <td style="text-align: center;">20%</td> <td style="text-align: center;">20%</td> <td style="text-align: center;">15%</td> </tr> <tr> <td style="text-align: left;">Graduation Rate</td> <td style="text-align: center;">--</td> <td style="text-align: center;">--</td> <td style="text-align: center;">15%</td> </tr> </tbody> </table>		Elementary	Middle	High	Content Mastery	30%	30%	30%	Progress	35%	35%	30%	Closing Gaps	15%	15%	10%	Readiness	20%	20%	15%	Graduation Rate	--	--	15%

SECTION II: FINANCIAL PERFORMANCE

FUNDAMENTAL QUESTION

Is the charter school fiscally viable and responsible?

INDICATORS

To answer whether the school is fiscally viable, the SCSC assesses a state charter school's performance on both near-term financial health and long-term financial sustainability measures using data derived from each school's independent financial audit. Near-term measures are designed to depict the school's financial position and viability in the upcoming year. Sustainability measures are used to determine a charter school's ability to cover long-term obligations and control costs effectively over time.

To answer whether the school is fiscally responsible, the SCSC assesses a state charter school's performance on both fiscal management and oversight measures using data derived from annual monitoring practices and SCSC and GaDOE enrollment data collections. Fiscal management and oversight measures are used to evaluate a charter school's ability to comply with relevant rules and laws, manage funds responsibly, and provide a more qualitative look at performance irrespective of near-term and long-term calculations.

MEETING GOALS

A state charter school can satisfy annual financial accountability requirements by earning at least 80 points across the near-term and sustainability measures and at least 80 points across the oversight and management measures. In other words, a state charter school must earn a "Meets Standards" designation on both Indicator 1 and Indicator 2 in order to receive an overall "Meets Financial Standards" designation for a given year. Indicators 1 and 2 are calculated separately, and both add up to 100 points independently.

If a school earns below 70 points (a Does Not Meet rating) on both Indicator 1 and Indicator 2, it will be designated as "Does Not Meet" financial standards. Any other combination of points/ratings will result in an "Approaches Standards" designation in the financial section of the CPF for the given year.

SECTION II: DETERMINATION OF COMPLIANCE

As measured by the indicators and measures set forth in this section, is the school meeting financial performance standards?

SCORING CATEGORIES:

Meets Standards	80-100 points
Approaches Standards	70-79 points
Does Not Meet Standards	0-69 points

SECTION III: OPERATIONAL PERFORMANCE

FUNDAMENTAL QUESTION

Is the organization effective, compliant, and well-run?

INDICATORS

To answer the question above, the SCSC uses data from agency monitoring and other sources, as noted in the appendix of this document, to determine compliance with the indicators listed below.

- Educational Program Compliance
 - Governance, Ethics, and Transparency
 - Obligations to Students
 - Employer Obligations
 - School Environment
 - Additional and Continuing Obligations
-

MEETING GOALS

In any year of the charter term, a state charter school will be deemed operationally compliant if it adheres to the requirements of its charter contract, all applicable rules and laws as measured by the indicators listed above, thus earning a score of at least 80 in the Operations section of the CPF.

SECTION III: DETERMINATION OF COMPLIANCE

As measured by the indicators and measures set forth in this section, is the school meeting operational performance standards?

SCORING CATEGORIES:

Meets Standards	80-100 points
Approaches Standards	70-79 points
Does Not Meet Standards	0-69 points
