Executive Director

Guiding Principles of the SCSC

Mission Statement:

The mission of the State Charter Schools Commission of Georgia is to improve public education throughout the state by authorizing charter schools that provide students with **better** educational opportunities than they would otherwise receive in traditional district schools.

Core Values:

To achieve our mission and to carry out our statutory charges as an independent charter school authorizer, the SCSC conducts all business according to high standards of **transparency, accessibility, objectivity, and innovation.**

Policy Development: Comprehensive Performance Framework

■ What is it?

- A set of academic, financial, and operational performance standards that are clear, quantifiable, rigorous, and attainable. In each of the three areas, the framework asks a fundamental question:
 - Academic Performance: *Is the educational program offering students a better educational opportunity?*
 - Financial Performance: *Is the school financially viable?*
 - Organizational Performance: *Is the organization effective and well run?*

■ Why do we need it?

- Establishes expectations, guides practice, assesses progress, and informs decision making over the course of the charter term and during the renewal process.
- Provides an increased level of transparency to schools and stakeholders with regard to state charter school performance.

■ When will it be complete?

- Spring 2015

■ Does the framework impact our current charter contracts?

- No. (Schools may opt into the framework if they choose.)

Policy Development: School Performance Profiles

■ What are they?

- Annual state charter school performance updates
- Highlights a school's progress on contracted performance goals OR performance framework metrics (for participating schools)

■ Why do we need it?

- Transparency
- Convenience
- Accountability

■ When will they be available?

- Summer 2015
